## Profit from Up, Down and even sideways markets...

Let me show you how you can copy me and do the same within 14 days from now, starting from scratch and regardless of your background – **TEST IT RISK FREE!**

Learn from and model your trades after someone who's already done it thousands of times during the last 30 years... raking in millions of pounds in profits... with uncertain times being some of the most lucrative of all years.

My name is Vince Stanzione, and I've done just that.

My highly-guarded secrets work equally well for the beginners as well as the seasoned trader, and puts an unfair (yet totally legal) advantage on your side of the trade.

I'm so confident that you'll make MORE MONEY while using this system, regardless of market conditions - that I'm putting my OWN money where my mouth is...

## Dear Friend and Fellow Investor,

This is NOT a 'Get Rich Quick' system. If you're looking for one of those, there's plenty to be found elsewhere – but it's not within MY financial trading system.

You have in your hands – the keys to a new opportunity - a completely new way for ANYONE to make an incredible income, simply by trading various aspects of certain Financial Markets ...

**This trading system works regardless of whether these markets are booming... crashing... or even moving sideways right now!!**

The type of trading I'm talking about takes no more than 15 minutes a day (lunchtime at your current job or evenings at home). Even those who have NO experience have raked in hundreds – even thousands of pounds – each week when using these methods.

### So, What's The Catch? Actually there are two:

- Number 1:** You need some basic computer skills.
- Number 2:** You need an internet connection wherever you want to do the trading – from home, work, handheld device, etc.

If you have both of these, then making profits between £100 to £2,000+ a day, REALLY can be as simple as 'flicking a switch' (... and I'll explain exactly how in just a moment)!

You see, while most trading systems are too difficult, too complicated or just too time consuming for the average investor to use, over the last 30 years, I've been using my unrivalled knowledge of the financial markets to make a Multi Million pound fortune using such a simple strategy, that I genuinely could teach a 12 year old how to follow it.

**Just 15 minutes a day. Trade from a laptop, iPad or smartphone at a time that suits you. Trade from anywhere. Students in 109 countries – total freedom.**

Now if you'll allow me, I'd love to show you how to 'flick-on your own switch' in order to make a regular income for yourself and your family... and to PROVE how confident I am that this will work for you too ...

## **You'll Get My "Full 12-Month, No Exceptions Guarantee" On All Training! That's Right - If You Don't Get The Financial Gains I'm Promising, You'll Get A Full Refund!**

"If you're fed up with everyone getting a 'financial bail-out' but you (especially when you're the one paying for it!), Or tired of the so-called 'investment experts' who couldn't see the current financial meltdown coming ahead of time, and surely couldn't beat the blind-folded monkey throwing darts at the stock chart... still charging you large commissions and high annual fees when they lose your money, then keep reading..."

### **Some of the things you'll discover as you read the rest of this letter...**

How you can turn SMALL financial investments into thousands of pounds of TAX FREE profits from the comfort of your home by following my simple **Step by Step** system.

**How anyone with or without experience can understand the 'flicking the switch' principle to guarantee profits from trading the financial markets.**

How you really can trade in about 15 minutes a day without giving up what you're doing now if you don't want to, and you'll make more money than most people earn in a week. And yes, you can do this at your convenience: mornings, evenings or even lunchtimes!

**How you can test my unique trading strategies for ONE FULL YEAR without risking a penny. This alone could effectively make my training FREE OF CHARGE to you!**

You'll discover the secrets of precision-timed trading in certain Global Financial Markets that can make HUGE sums, regardless of the stocks moving direction: crashing, booming or even moving sideways.

**Test drive with a Virtual Account.**  
**Test the system with a no-risk virtual account.**

Why my system is different from anything else you'll have seen before and written **PROOF** from individuals, who have already changed their lives and the lives of their loved ones once they began using it.

And above all, my credibility. Why you should listen to me and the **REALISTIC** returns you can expect if you do.

**So, how would YOU like to be one of a small group of individuals trading like this and making realistic returns of £100 to £2,000+ PER DAY... EVEN WHEN THE ECONOMY IS CRASHING DOWN AROUND EVERYONE ELSE?!!**

This is real, and the time is right ...

If you're sick of earning 1% on your savings, watching your retirement account shrink, fed up with paying your financial advisor HIS commissions and outrageous annual fees while he's doing nothing but losing your money... or even if you've already tried and failed with other trading systems in the past ...

I'm absolutely certain that I can show you how to make more money than ANY other form of investment, and not only that, the returns can be massive!

I've literally made millions from performing these simple techniques I'm offering you here. There's nothing stopping you from doing the same: **REALISTICALLY**, you could easily be 'flicking on your own financial switch' and begin making sums like £100 to £2,000+ PER DAY – and you can start doing this in as little as 14 days from now!

Imagine less than one month from now - the difference an additional £100 or £200 (on the low end) every single day would make in your life.

Then imagine the difference an additional £1,000 or £2,000 every single day would mean to you. If this is something you're interested in...

**For Beginners or Pros. Whether you're a complete beginner or you already trade, I can help you make more money and give you an unfair advantage... REGARDLESS of market conditions.**

## I'm willing to send you my complete trading system and let you use it for the entire year – Risk Free! You can study it, use it and profit from it during the entire year.

Now I'll explain the full details of this 'can't lose' offer in a second but just before I do that, the obvious question you're probably asking is: "If Vince makes so much money from trading the financial markets ...why would he want to share this with me? Let alone, show me exactly how to do it myself?"

Well, in order for me to answer your burning question, let me tell you a little bit about myself and it'll become clear.

By the way I'm not telling you any of this to brag, show off or impress you, I'm simply revealing this side of me to impress upon you that I honestly know these trading techniques like the back of my hand and can teach anyone how to do it – and I'm totally genuine in my motives.

You see, I've become a self-made Multi-Millionaire doing **EXACTLY** what I'm offering you here. I know that anyone who follows my trading system can make money from it without having to be glued to a computer screen all day.

My income has allowed me to live an incredibly rewarding lifestyle. I travel all over the world and 90% of my trading is done from the terrace of my private villa in Mallorca, Spain (...which is where I choose to spend most of the year these days. These are actual photos of my home - a long way from the 1 bedroom apartment I was living in Luton some years ago) or sipping Cappuccino by the yachts at the nearby Puerto Portals Marina. I'm also probably THE most successful independent 'spread - trader' in the UK, having been featured in various international newspapers, websites and magazines including ...

The Observer, Sunday Express, The Wall Street Journal, Reuters, The New York Times, Guardian, Independent On Sunday, Mail On Sunday, The Times, Shares Magazine, Investors Chronicle, Bloomberg, Sky News, What Investments, Self Made Millionaire, IFA online... just to name a few. I am also a New York Times bestselling author.

**I'm the real deal.** I'm working this same system every day - just like I want you to do. I'm NOT some fly-by-night 'nobody' that's new to this - I have over 30 years in this business. Publications of this calibre wouldn't be writing about me or listening to what I've got to say if I didn't have absolute credibility!

Back in my early days, I worked in the city... on one of those busy trading floors that you see on TV, and my full-time job was to buy/sell shares and futures relating to indices and/or currencies.

The banks I worked for then would literally trade millions of pounds every day - money that you and I simply didn't have, nor would we ever consider risking if we did.

However, because of the 'stakes' involved, I would often make my employers over 1 million dollars A DAY in

**"The summer period beginning late May to early August was extremely profitable. I earned up to £30,000 from indices trades on the Dow, FTSE and S&P, Thanks Vince"** Mr M Mears

profit! Even back then, I remember thinking to myself “If I could just trade a tiny amount of what I do for them, but through my own account, I could easily make £1,000 a day for myself and be set for life.”

Unfortunately, at the time, the ‘little guy’ wasn’t able to get a foot in the door and trade like we can now... so I decided to leave the city and start my own business doing something completely different.

I actually became quite successful and never really thought about the money-markets again until one day, quite by chance, I saw an article in the Financial Times which opened my eyes to a new way of trading, something that involved much smaller stakes and much less risk ...

Best of all, it was based upon what I used to do but now the profits could be paid directly into my own personal bank account or retirement account.

It was just what I’d been looking for, and using my unrivalled knowledge of trading, I was able to develop a set of trading methods and started making huge returns, almost immediately.

Now it wasn’t all smooth sailing at first. I made mistakes ...There was of course a learning curve – but that’s the best part of what I’m offering you here: You get to learn from MY mistakes back then, and cut the curve down by LOTS!

**Yes, I lost many thousands of pounds but I also GAINED MILLIONS... and since then I’ve been able to refine my methods into a ‘hyper-efficient system’ that comprises ONLY the elements that really work!**

**And of course, this is the exact same system that I want to share with you!**

Take a look overleaf at some of the returns that I’ve been getting RECENTLY to give you an idea of the kind of potential that I’m talking about ...

**Easy to Follow, step-by-step system**  
**that tells you when to buy – and more importantly –**  
**when to sell. No jargon and no second guessing.**

## Why would I want to share this with you?

Well first, if you make money in the same market I'm making money – It doesn't affect me in any way at all. If it did, I wouldn't be telling you!

And of course, it's NOT because I need the money (... although I will make a little 'fun' money from selling my system).

Fundamentally though, it comes down to two things – **conscience and prestige!**

Over the past few years, I've told a few friends and family about what I do in a "very vague way", but I'd never explained fully the nuts-and-bolts of the trading system.

Unfortunately, a few of them, thinking this was 'easy money', went out and tried it on their own ... and you've guessed it: they ended up losing an awful lot of cash... because they didn't have the complete system and didn't learn the techniques properly.

Of course I felt bad for them, and it got me thinking...

## I have made Millions of pounds from this trading system...

I already have the dream lifestyle, I own multiple houses around the world, I work whenever I feel like it, and my life is pretty much perfect, except for one little thing...

Financial trading has been good to me - it's relatively easy, yet it's made me phenomenally successful, so it upsets me when I see how many people try to get into this business and fail miserably!

Not only do they lose their hard earned money to greedy stockbrokers, software vendors, seminar sharks and investment brokers, but often the loss is directly related to a lack of proper training and poor advice.

**Spare 10 minutes a day – I will show you How to make a Great Second income from your computer following my step by step system trading financial markets**

I couldn't find any – not one – honest guide to trading... so I decided to do something about it. I decided to build my own. I started with a complete manual of charts, graphs, examples, along with complete explanations of each trading technique.

Which is such a shame because **ANYONE CAN DO IT** if they just follow a few basic rules...

Of course, having spent a good five years gathering and writing everything I learned throughout the years of trading wasn't easy - I now believe it's the best, most complete information out there. Way ahead the best information on this subject, much better than anything else out there.

### **But don't just take my word... here's what others have said after investing in and learning from my system:**

"The summer period beginning late May to early August was extremely profitable. I earned up to £30,000 from indices trades on the Dow, FTSE and S&P, Thanks Vince"

**Mr M Mears**

"This course has played a fundamental part in my ability to make consistent profits trading US & UK markets. It also provides a great ongoing reference tool. Time and money well invested!"

**George Harrison**

"I've used the workbook and video extensively. My profits since beginning trading in June are currently in excess of £65,000"

**Mr John Turner (trading statements on file)**

"I found the workbook easy to follow and very clearly written. Being a technical author, clarity in educational material is a high priority"

**Mrs Debbie Allen**

**Full Support. If you get stuck I am here to help you.**  
**Plus you'll have full access to the members' website with tools to help you succeed.**

“A practical, useful and easy to understand workbook backed up by visual aids (video). A constant source of reference”  
**Steve Watts**

“Great insight into an otherwise exclusive world, still not sure why you would want to share this with the ordinary folk but thanks anyway, I’m glad you did”  
**Mr Graham Souter**

“The best home study course on the topic available. Worth every penny!”  
**Mr Ian Panton**

“Excellent content, informative and inspiring. My experience of my virtual account has been very encouraging – up £7,000. Vince, I receive a lot of material promoting me riches most of which ends up where it deserves! Warm regards”  
**Mr Roger Firestone**

“The workbook is very easy to comprehend and the video is clear, well recorded and complements the workbook”  
**Mr A Showman**

“Vince, you are one of the few genuine & honest people within this industry – keep me informed of any new services”  
**Mr Stephen Felton**

“From the initial letter the logic, openness and honesty of Vince’s approach and business model was very appealing to me. I found this product very enlightening and easy to follow as it not only clarified many myths about the market but provided me with a simple and easy framework to follow for trading success”  
**Mr Ian Kiley**

(I have binders full of real, signed testimonials from people all over the world, who are successfully using my trading system to change their lives, all of which have been obtained in strict accordance with section 14.1 of the Advertising Standards Authority code).

Anyway, the point is, since I’ve written this course I have students all over the world (... from 109 different countries) who are already using my system to make MASSIVE changes to their lifestyles, even as you’re reading this letter.

**And they’re not all Wall Street types either, far from it...**

**“I’ve used the workbook and video extensively.  
My profits since beginning trading in June are currently in  
excess of £65,000” Mr John Turner** (trading statements on file)

...these are ordinary people just like you and me - including restaurant owners, dentists, florists, jewellers, electrical contractors, plumbers, housewives, cab drivers and even a few heart surgeons!

Most of them were completely new to trading before they started following my system.

## How one man brought spread betting from the city trading rooms to the suburban living rooms

★★★★★ **85% PROFIT in 1 MONTH!!!!!!!!!!!!!!**

By Tony Forsyth on 20 Nov. 2014

Format: Ring-bound

I've made 85% profit in one month from following this home study course.

I bought Making Money From Financial spread trading by Vince Stanzone in June. I took 4 months to read and cogitate every thing in the work book. I now wish I'd read it quicker!!! The course is really easy to understand and is set up so well that even complete novices like myself can make sense of it and make money. I wanted to share my experience and recommend this product. I started with an initial investment of £2000. I'm not a rich man. My current balance stands at £3700 after just 1 month. My only word of caution to anyone is don't get greedy. Initially I lost £500 in the first week and a half. I had small profits available to me on three trades but stayed in too long and lost. I have learnt from this experience and am now in profit. Long may it continue and if your thinking about buying this product do so now don't delay it is well worth the investment. Good luck not that its needed!!!

Some had already spent thousands on other trading systems, courses and materials before they found me – but each said they'd never made a 'breakthrough' in trading until they started my system...

...until they started using MY methods (...I told you there was a little prestige involved - this does my ego a hell of a lot of good)!

Anyway, the point is, whether you join me or not, it'll make no difference to my trading profits...

I'll still have the dream lifestyle ... I'll still have multiple houses around the world ... and I'll still continue to make thousands of dollars every day ... and so will my students.

## So what EXACTLY Is It That I Want You To Copy?

Well, it's actually quite elementary...

Just as the banks have done for years to make their profits - I'm able to use similar techniques (... but on a much smaller scale) using very carefully calculated 'risks' to almost 'guarantee' a profit every time.

It doesn't matter where I am, or what I'm doing, as long as I can get online, I simply access a few websites on my laptop computer or handheld device, follow the strict criteria of the system, and then place a few relatively small trades, according to whether a particular market, share, commodity or currency is going up ... down ... or even sideways.

The whole process literally takes around 15 minutes (... no more than half an hour ... sometimes less than 10 minutes) and then I go off and enjoy the rest of my day – I'm NOT tied to the computer!

**I know that sounds like 'hype' but it's absolutely true, and for that I'm able to pull in regular PROFITS of over £5,000 a day ...**

**All profits from Financial Spread Betting  
and Binary Trading are TAX FREE –  
you keep all your profits**

The secret is to know which 'direction' that particular market is going, and that's where my system is so unique because it automates virtually everything for you. In fact the steps are SO simple that I could teach an averagely bright 12 year old how to follow them.

That said, I don't want to mislead you, I've been doing this for 26 years and I know how to play the game so I don't expect you to start at my level (... although there's absolutely NO REASON why you couldn't) ...

**... but REALISTICALLY, if you take me up on what I'm about to offer you, you could be pulling in anywhere between £100 and £2,000+ a day - WITHIN 14 DAYS from now... from scratch and just a small starting budget!!!**

Of course I realise these figures may seem unbelievable at first, especially if you're new to this and what with all the other junk 'schemes' that are around at the moment but just to give you an idea of what's truly achievable when you follow my system, take a look at what Dr. Kremer did ...

Just 8 days of putting my system to the 'test', he made a clear profit of £7,900...

"The trading system is impeccable and the judgment acquired is beyond price. Within eight days I had made £7,900...quite incredible"

**Dr M Kremer (trading statements on file)**

And then there's Chris Muldoon who got my trading system and set an audacious target to make £250,000... within 12-months. As you can see, he was in profit to the tune of £230,000 before deciding to treat himself to a holiday of a lifetime in New Zealand ...

**"I am just saying thank you for your course and video which has enabled me to become a successful trader. I have had a great year, my target was £250,000 and I am up £230,000 to the 11/7 when I closed 90% of my trades and went to New Zealand. I have only started back trading today and feel more relaxed and more confident than ever before. Thanks again"**

**"The trading system is impeccable and the judgment acquired is beyond price. Within eight days I had made £7,900... quite incredible"** Dr M Kremer (trading statements on file)

The great thing about this is that **it's up to you how fast or slow you go** ... you can start by making very small trades to begin with and when you feel more confident, you can start placing bigger trades more frequently. You decide your own tolerance level.

Now, I know you're going to be saying to yourself "OK, that's all well and good, but if you could predict the direction of a market that accurately, surely other people have caught on by now and everyone would be doing it!"

## **Well actually - NO.**

Anyone who claims they have a trading system that never loses on a trade is outright lying, and mine is no different. After all, that's the name of the game but although my system almost invariably gets it right, I really want to be absolutely open and honest with you ...

Every now and again (... and usually through unforeseen circumstances and NOT the fault of the system itself) things CAN go against it.

Not often, but it does happen ...

## **But this is where 'flicking the switch' comes in**

**This is the first of my three core principles** and probably 'THE' most important aspect of ANY trading situation, yet it's the one thing that so many people get so wrong (... even professional traders).

# **YOU CAN NEVER LOSE ENOUGH MONEY TO HURT YOU**

In fact I'd go as far as to say that this is the number one 'secret' to my success and why I've made so much cash from doing what I consider to be the best 'job' in the world!

You see, for many traders, when a market goes against them for whatever reason, it's an absolute disaster, but for me it's just a simple matter of making sure it doesn't get out of hand...

**I'm willing to send you my complete trading system and let you use it for the entire year – Risk Free! YOU CAN STUDY IT, USE IT AND PROFIT FROM IT DURING THE ENTIRE YEAR.**

## And the 'Switch' takes care of all that!

Think of it like this ... You know those trip-switches (located inside your fuse box...usually found underneath the stairs or garage)? They control the electricity going to different parts of your house.

Well they're a safety device - if something goes wrong with your kettle... the kitchen fuse will flip off and kill the electricity supply to that room before it can do any **SERIOUS** damage to your house.

## OK, you might have to buy a new kettle but that switch will stop your house burning down!!!

And just like 'flicking the switch', you can set your trades to 'turn off' (... cancel) so they **NEVER** cause you any lasting financial damage if something doesn't go your way!

Not only that, because of the way this works, you can set the switch to 'turn off' automatically! Can you see the power of this? You can set your trades to 'turn off' (... to be cancelled), even when you're not there – when you're out enjoying your life!

Just imagine, running the system in the morning, setting up a few small trades and then going off to spend the day fishing, reading in the library, playing with the kids on the swing-set, whatever **YOU** would do with your new-found free time. You would rest assured, knowing that in the unlikely event that the system doesn't predict the price movement accurately, the built in safety features will kick in and simply **NOT ALLOW** you to lose anything of any significance (... rather like your house not burning down)!

Of course if you've had any experience of the financial markets already, then you may well be familiar with this concept but let me tell you now, so few people get it right (... even some so-called 'professional' traders)!

**Take Action Now** and the package can be in your hands within 72 hours – Order today at **www.TheSpreadTrader.co.uk**

But with my system, it's so EASY to set the safety features and forget it. You then just go away and enjoy the rest of your day!

However, I can't stress this point strongly enough ... If you follow my system and do everything I show you (... nothing difficult don't forget), not only will you NEVER lose more money than you allow yourself, BUT ...

## ...THE AMOUNT OF PROFIT YOU MAKE IS VIRTUALLY UNLIMITED!

**This is the second of my core principles** and it's really quite amazing, in fact it almost seems too easy sometimes, but this is EXACTLY how I made a multi-million dollar fortune, and there's nothing stopping you from doing this too.

I love these kinds of odds: MINIMAL LOSSES (... the system will tell you the maximum you can allow for this) and UNLIMITED GAINS...

Which brings me nicely on to **the third of my core principles...**

Because 'trading' involves ONLY trading on the 'price movement' of a particular market...

## ...IT DOESN'T MATTER IF THAT MARKET IS GOING UP, DOWN, OR EVEN SIDEWAYS!

Do you understand what this means? It means, when you follow my trading system...

**You can even make money when a market DROPS in value!**

Regardless of the economy, regardless of what other people are saying, regardless of how 'other' investments are performing, it really doesn't matter. If you use my system correctly, strictly limited losses and unlimited gains mean you ALWAYS make money...

**I was in Las Vegas over Christmas at the Wynn & Bellagio Hotels and I placed one trade using my iPad and made over £20,000. See the exact trade at [www.fintraders.com](http://www.fintraders.com)**

## There's something else to consider as well...

You don't have to be glued to a computer screen 12 hours a day, in fact, as I often point out to my trading students...

## If you're spending more than 30-minutes a day trading, you're probably doing something wrong... terribly wrong!

Which I think you'll find is completely the opposite to most other trading systems you'll come across.

## My system gives you total freedom...

Thanks to cheap internet access and cheap computing power (... a £299 computer does more than my \$1million trading computer did back in the 80's), you can literally do what large banks and financial institutions do, but on a much more personal level. Ultimately, what amounts to peanuts for them, will become a 'life changing' income for you!

You'll require no licenses, no special equipment and you can trade from your home, office, or pretty much anywhere you can get an internet connection (... something many other systems claim, but very few can deliver on).

"This is a great course that is well worth the time and money. I have gone from a novice to making £1000 a week doing less than an hour's work a day! Thank you Vince – you have changed my life."

## And unlike traditional businesses... You can literally do this whenever it suits you...

I don't think there's anything worse than having to work when you don't feel like it. What about those mornings when it's cold, wet, or snowing outside and others are stuck in traffic and rushing off to work.

Imagine how it would be if you didn't have to leave the house, but could wander around in your PJ's, coffee cup in hand, working for 15 or 20 minutes, and then be done for the day!

That's what I do - I get up when it suits me, I have a relaxed, leisurely breakfast, read the papers and only then decide what I want to do with my day.

I usually then log on to my computer, visit a few specific websites, let the system tell me what to trade (... or whether or not to even bother on certain occasions), log out and that's it ... days 'work' done. I then go away and enjoy the rest of it ... literally!

## You don't need an expensive office...

Because trading is one of the few businesses that genuinely can be done from a laptop computer or hand-held device, anywhere in the world, you don't even need an office, or furniture, or employees and the other hassles, maintenance and costs that go with them and bureaucracy that plague us these days when you have a traditional business.

With my system, as long as you can connect to the internet, you can do this from a cheap old laptop computer at home, in the garden, sitting on the yacht or even from the top of a mountain if you wanted to!!

**Easy to Follow, step-by-step system**  
**that tells you when to buy – and more importantly –**  
**when to sell. No jargon and no second guessing.**

## No staff

It's funny, the amount of people who assume I have a team of people working in a back room, punching numbers and doing all the complicated stuff for me. It's laughable really because what I do is just so simple, you don't need employees – heck, you barely need to do anything yourself!

## Little or no start up costs

I really want to stress this point. You DON'T need a massive bank balance to do this...

Practice trading first with a free, virtual account. Then, when you are ready, you need around £500 minimum to open an account. Once you see this in action and your profits increasing rapidly, you'll be itching to get on with the bigger numbers, just as I do.

Bottom line: this is simply  
the most wonderfully satisfying,  
**HASSLE-FREE**  
way of making an incredible  
stress-free living!

## Making Money From Financial Spread Trading

This unique manual contains the exact 'blueprint' I use myself, as do my many students all over the world to make hundreds ... thousands ... and even tens of thousands of pounds every single week from the financial markets.

Laid out in a simple step-by-step format, it maps out the whole process from start to finish, right from the basics of setting yourself up, all the way through to making HUGE profits as a successful independent financial trader. Just to be clear this is a hardcopy professionally printed workbook which will be delivered to your door not some cheap Ebook download.

**For Beginners or Pros. Whether you're a complete beginner or you already trade, I can help you make more money and give you an unfair advantage... REGARDLESS of market conditions.**

## Here are some of the 'secrets' you'll discover from this one resource alone:

**How I went from a 16-year-old social and academic drop-out on just £5,000 a year, to making my first million at age 26, and multiple millions by age 36!**

**What the trading brokers don't want you to know (... and pray you never find out) so they can keep 'fleecing' you without you even being aware of it.**

**How to trade and profit quickly from a particular type of market if you need extra money sitting in your bank account by the end of the same day (pages 25-30).**

**8 secrets from my multi-millionaire perspective that I wish I knew 30 years ago when I was just starting out. These are the 'invisible' secrets behind my phenomenal trading success that I KNOW you can benefit from too, when you utilise them.**

**The 'flicking the switch' principle that allows you to legally 'lock in' profits from your trades, even if you get hit over the head and suffer memory loss just after you've placed the order!**

**A specific trading principle that instantly enables you to 'cream off' money from daily price movements of \$4.2 TRILLION DOLLARS in foreign exchange markets (... don't worry, it's perfectly legal in the USA and there's nothing unethical about doing this)!**

**Examples of how to make money from UP trades and examples of how to make money from DOWN trades.**

**The most dangerous thing you can do once you've placed your trade. You'll be surprised at this one!**

**Where to place your very first trade. This 'market opportunity' gives you 3 advantages that you'd be crazy to ignore (page 54).**

**Take Action Now** and the package can be in your hands within 72 hours – Order today at **[www.TheSpreadTrader.co.uk](http://www.TheSpreadTrader.co.uk)**

**What to look for on your computer screen that will enable even a raw novice to instantly 'read' the market. This is great information if you want to put an 'unfair advantage' on your side when placing (... and exiting) a trade (pages 118 – 121). How to make money from the markets (... using a rarely used technique) that enables you to make money when a market 'flat lines' or moves SIDEWAYS.**

**Why, contrary to popular belief, you should pray for volatility and even financial market crashes.**

**An easy and 100% ethical way to trade like an 'insider' ... without breaking ANY law.**

**How to recognise 'unseen forces' operating in every market and how to use each of them to 'stack the deck' in your favour.**

**How to know the absolute critical moments to enter and when to exit a trade for maximum profits and minimum losses. Your friends will think you can see into the future!!**

## **And there's A LOT more including...**

**How to make huge chunks of cash when everybody else is complaining because interest rates are the lowest in 10 years!**

**Why you can increase your chances of making money in the commodities markets by watching a bizarre Eddie Murphy comedy...**

**The 'grain of rice' principle that forces your trading profits to multiply at an astonishing rate.**

**I'm willing to send you my complete trading system and let you use it for the entire year – Risk Free! YOU CAN STUDY IT, USE IT AND PROFIT FROM IT DURING THE ENTIRE YEAR.**

**Worldwide access** - My workbook has a full list of brokers that will deal in a number of countries including UK, Ireland, Europe, Australia, Singapore, South Africa and Canada as well as a list of brokers that deal in Russian, Spanish, Italian, German, French, Chinese and other languages. Yes you can even 'leverage' the amount of money you make by trading in 'non-English- speaking' markets!!

## Component #2: 'Making Money From Financial Spread Trading'

**2 DVD SET** - Vividly 'bring-to-life' the information I present in the manual.

Pop them into your PC, Mac or DVD player and then sit back and watch me show you the way I trade 'live' on your screen (... **you'll even see how I PERSONALLY select the trades that are 'primed' for maximum profit.**)

Just like the manual, these 2 DVD's (... lasting a total of about 2.5 hours) are completely jargon-free. These are broadcast quality DVDs no having to download or watch low quality internet video.

Simply log in once (... usually at the end of the day) and the Trendspotter™ system will give you accurate readings on numerous markets including: Dow Jones, S&P 500, Gold, Crude Oil, and all the major currency markets.

Why would you want to know about these?

Well basically, these particular markets are a 'goldmine' that we can tap into and the Trendspotter™ system allows you to check the viability of a trade (... and therefore the potential profitability) on them before you place it!

In other words, the Trendspotter™ system is like a **kind of trading 'Safety Check List', which will save you from making any non-profitable or 'bad' trades!**

But don't worry about it for now. It'll all be explained fully (... in plain-English) when you get your copy of the 'Making Money From Financial Spread Trading' package.

## Complete Binary Options Guide To Successful Trading Ebook

I said before that I hate gambling because that relies on chance but my system is based on highly controlled and cleverly 'calculated risk', so I don't consider it to be gambling at all ...

I will show you how to profit from up down and sideways markets using fixed odds trades or binary options in my electronic book 'A Complete Binary Options Guide To Successful Trading' which is also included with my home-study course.

Fixed Odds allow you to trade and profit from UP, DOWN and even SIDEWAYS movements in the financial markets. And you can trade and profit from bets lasting just 1 minute all the way up to 180-days!!

Let's just say, this electronic book, gives you an 'ace up your sleeve' when it comes to trading and profiting from the financial markets, an 'ace' that 99% of even experienced traders won't have. You can download and read (...or print out) the book right from your computer screen or put it on your iPad.

89% profit in 24 hours. Sounds impossible but here is the proof – I will show you how binary bets can make you 80%, 90% + returns normally within a few days and of course you can repeat this and compound your profits so even a small account can grow.

I'm not a charity and I'm not going to devalue this system by giving it away for peanuts. Over the years, I've found that when people get something for little (or nothing at all), that's exactly what they end up doing with it over time – absolutely nothing! Well, I don't want those people to have my system. I'm looking to help those who want to help themselves... those who want to learn more, trade better, make some serious money and enhance their lives and the lives of their families.

**For the first 197 'Making Money From Financial Spread Trading' packages ordered – here's the deal: I'm going to charge you one payment of £197.77 when I ship the system to you. I'll pay the remaining £250 for you, until you make a CLEAR TRADING PROFIT OF £1,000 FROM MY SYSTEM!**

Fair enough?

**For Beginners or Pros.** Whether you're a complete beginner or you already trade, I can help you make more money and give you an unfair advantage... **REGARDLESS** of market conditions.

I'm sure you'll agree, £197.77 is a ridiculously small investment to get your hands on something that could realistically enable you to give up your current job (... for those who want to of course) ... or let you treat your loved ones to the finer things in life ... or send your kids to college... or pay off the mortgage debt... **but above all else – this system will give you the FREEDOM to live your life however it suits you!!!**

Plus... Don't forget...

**It All Comes  
With A 12-Month,  
No Exceptions,  
100% Money Back  
Guarantee!!**

Most trading systems only come with a 30-day guarantee. Some have no guarantee at all.

So I guess it's decision time ...

Are you a dreamer, someone who wishes they could get a break but never really puts in the effort? That's the majority I'm afraid.

## Millionaire Trader Shares Money Making Secrets

By Rob Sheppard

### SELF-MADE MILLIONAIRE

Vince Stanzione amassed a fortune and a jet-set life on the Mediterranean by gambling on stock market price movements over the internet. And now he shares the secrets of his system, insisting that it's so simple, anyone can do it.

"Stock market traders like to build a mystique around what they do, hiding it all behind jargon to keep people out," says Stanzione. "Phrases such as 'spread betting' and 'gambling on price movements' can initially be off-putting ... but what lies behind them can be easy to learn and accessible to anyone with a modicum of common sense and a determination to earn more from their money than the miserable rates offered by today's savings accounts."

"You need to put aside a few stereotypes," he continues. "This is not the world of hot-headed youths storming through the city yelling 'sell'. In fact, I see a lot of interest among the 55+ age group and many retired people who've become fed up with seeing almost no return on their savings."

Stanzione has turned the system that made his fortune into a personal training package called 'Making Money From Financial Spread

Trading'. Consisting of a workbook, two DVDs, a dedicated members-only website and full support, the package covers both spread trading and conventional sharedealing and, importantly in these unpredictable times, shows how money can be made from shares going down, and even sideways, as well as up.

"The package is designed for people with little or no experience," says Stanzione. "I've demystified everything. I take students through it step by step and I provide a dummy account to practice on, all within the package. You start by studying, then

you try a few small bets and work up from there at your own speed."

"Typically, students spend around 30 minutes a day and can do it from anywhere. In fact, we're seeing more and more people trading on their mobile phones and iPads, often as a sideline to their main job."

The system is adaptable to different markets, such as commodities, shares, currencies and indices.

"Trading trends are like fashions: they change regularly and you need to go with them. At the moment we're seeing a lot of interest in commodities such as oil, silver, gold and coffee, which can all be traded through the programme."

Another old trading stereotype to dismiss is the idea of "betting your shirt" on a single idea. "This is the stuff of movies. You don't have to make money from every trade," counsels Stanzione. "In fact, that would be very unusual. You don't even have to make a profit from the majority of your trades. If you lose a little on eight but do well on two, you've sensibly spread your risk and come out in profit, which is how any prudent investor works. And you don't 'bet' large amounts on a whim. If you think something's good, invest a small amount to test the water and then go for a bigger amount if you're happy with the result."

Of course, there are no guarantees of a return but learning from an expert greatly improves the odds, and trading with a financial spread bet has the added attraction that profits are tax-free. Would-be traders can start with as little as £1000.
